A truly educated person has learned a sense of justice, duty, above all else, honesty—not only because it is the best policy but because it is right.

Education is not information, it is the ability to use information.

S. C. Weber

Character is a perfectly educated will.

Norvalis

Education has a market value.

Let us learn to live together or else we will not live at all.

Religion, morality and knowledge being necessary to good government and the happiness of mankind, schools and the means of education shall forever be encouraged.

NOTICE TO SCHOOL OFFICERS AND TEACHERS

No teacher is legally hired unless there has been a legal meeting of the school board, at which time a majority of the board voted to hire such a teacher. School officers cannot contract with a teacher not holding a certificate valid in the county where she expects to teach. No public money can legally be paid to such a teacher. Districts employing such a teacher will forfeit their primary money the following year. A contract must be made and signed by the school board and the teacher.

A certificate and oath of allegiance must be filed in the office of the County Superintendent of Schools and institute fee paid before the teacher is qualified to teach and draw public money. (See General School Laws.)
